Projects

Developer Portfolio

If you are a web developer or a web designer, it is essential for you to have a portfolio website. It lets you provide information about yourself and showcase your best work with your relevant skills and experience.

to do list

"Build a simple to-do list web application using HTML, CSS, and JavaScript. Allow users to add tasks, mark them as completed, and remove them. Make it visually appealing with CSS styling and ensure smooth functionality with JavaScript interactions."

Golf website

"Develop an engaging golf website using HTML, CSS, and JavaScript. Showcase stunning visuals of golf courses, equipment, and players. Incorporate interactive features such as score tracking, tee time booking, and instructional videos to create an immersive experience for golf enthusiasts. Elevate the site's aesthetics with CSS styling and ensure seamless functionality with JavaScript enhancements."
